A recent "find" in cataloging the Society's book collection is Progress to A Centennial, The Story of Warm Springs School, written by Sue Aurora Smith and published in 1957 by San Bernardino County Historical Society. This is must reading for anyone interested in education in our community. Of particular interest are the numerous sketches of Jan Pierce of the growth of the school - from a one person adobe built in 1854 to the building as it looked in 1926.

We have collected a variety of local photographs and want to have a "Picture ID Meeting" in the coming fall or winter. We need to identify our photographs before they can be properly catalogued. We'll announce the I.D. day in a future issue of Odyssey.

The volunteers will be in vacation for the summer. We do plan to meet but on a more impromptu schedule because of vacations. If you would like to join these sessions, please contact JAR at 887-7326.

But in the interim, will you please check those old photo albums, the attic trunks, your bookcase - anywhere you might have something we can use that is gathering dust. We will gladly accept any such donations, clean it up if necessary and place it in our PERMANENT library for students and later day researchers to use and enjoy. Postcards, Books, old photographs, letters, advertising pamphlets (like Harlem Springs, the Orange Show, Arrowhead Springs Hotel), Orange Case Labels - you name it, we can use it!
